

Big Otter Elementary

Afterschool teacher Jacey Collins engages a group of second grade students in a lively discussion.

Homework Help time involves reading, drawing, and completing activity sheets for these K-1 students.

Clay Elementary

Afterschool teacher Marlene Lewis helps K-1 students determine all the ways they can add different numbers to make 10.

Fourth and Fifth Grade students practice math facts by playing a fun Bingo game with afterschool teacher Dawn Belt.

H.E. White Elementary

Fourth and Fifth grade students create their own Easter egg art with teacher Lisa Haynes.

Homework Help is the perfect time for K-1 students to practice math skills by solving simple color-coded subtraction and addition problems.

Lizemore Elementary

Site Coordinator Julia Triplett helps K-1 students master the fine art of paper mâché.

A third grade student proudly displays the artwork he created during enrichment time.

Clay County Middle School

Learning to tie survival knots, such as the figure eight, can be a little tricky.

Afterschool teacher Allen Hamrick helps demonstrate step-by-step how to tie the knots successfully.

Clay County High School

Forester Hunter Hannah helps students practice tree identification, as well as how to measure tree diameter and height in preparation for the WV Envirothon competition.

Clay County Extension Agent Mike Shamblin works with students who will be competing in the grasslands competition.
